Steve-

I am leaving for the airport at 3 PM Eastern, 1 PM Mountain. Mid afternoon doesn't work for the landline. I should be in cellphone range after 2:30 pm until 4:30 pm mountain time. [Personal Phone/Ex. 6]

I have really tried to be very cognizant of the difficulties you guys have encountered.  
But I am serious about meeting in Denver to try to work out a game plan going ahead.  
This should include Mr. McGrath.

We explicitly do not want to have the worst option play out due to the error that occurred last week.

Todd - how does sometime mid-day mountain time work?

I'll be heading down to Durango/Silverton this afternoon.
